

Ingredient Container ZBK

Basic technical information

Labelling	Dimensions: B x T x H (mm)	Holder
ZBK 24	205 x 465 x 460	24 ltr.
ZBK 65	275 x 610 x 670	65 ltr.

Ingredient scale: extra position

Intended use

Hygienic and clean storage of powder, ground, crystalline, grainy products as salt, sugar, baking agents, grains, coarse meal and flour, as well as their manual weighing.

General function

Containers are filled and emptied manually; the weighing is done using the ingredient scale.

Construction

The ingredient containers are manufactured entirely from food-safe plastic. Filling and emptying is done from above, correspondingly below, whereby outdated of supplies is prevented. Clear markings rule out errors. Each container can be detached for filling or cleaning.

ZBK65
Capacity 65 ltr.

ZBK 24
Capacity 24 ltr.
